Warren Rollins', owner of Express Lane, reason for Advertising is to raise his business awareness and promote special offers. Warren's only other source of advertising is the Internet as he agrees that Valpak outperforms every thing he has tried in the past. Warren states "Valpak brings in NEW Customers. We see 10-15 New Customers per month. Great way to get our business into homes we could not normally reach!". Mr Rollins also takes full advantage of Valpak's Digital Programs and would highly recommend them to any business owner looking to bring in new customers and grow sales.
